# About CU

CU History

CU Governance

Campus Role and Mission

# CU History

The University of Colorado dates back to the early days of Colorado. At its first session in 1861, the Colorado territorial legislature passed an act providing for the creation of a university in Boulder. To establish the university, the legislature appropriated \$15,000, which was matched by Boulder residents. The Civil War delayed the formal founding of the university until 1876, the year Colorado became a state. The doors to Old Main opened on September 5, 1877. Old Main still stands and is used by many members of the university community.

CU has grown dramatically since its early days. It is now a system with four distinct campuses: Boulder, Colorado Springs, and Denver and the Anschutz Medical Campus. In 1974 the Board of Regents officially established the CU System, led by a president, with each campus led by a chancellor. The Colorado Springs campus began in the 1920s as an extension center for the Boulder campus. By the 1960s the extension center had grown to more than 1,200 students. A gift of the land and buildings of the Cragmor Sanatorium provided a permanent site for the campus, and in 1965, the extension center became the University of Colorado at Colorado Springs. The Denver Campus also began as an extension site, first offering courses from Boulder in 1912. It became an official extension center in 1957 with authority to grant degrees, and then became an autonomous CU campus in 1974. It shares the Auraria campus with the Community College of Denver and Metropolitan State College of Denver. The health sciences center began on the Boulder campus in 1883, but moved to Denver in 1925. It also became an autonomous CU campus and eventually outgrew its Denver space. In 1995 the federal government decommissioned the U.S. Army Medical Garrison at Fitzsimons in Aurora and conveyed the property to the university. The health sciences center subsequently began the move to what is now known as the Anschutz Medical Campus. In 2004, the Denver and health sciences campuses merged to form one institution, although they maintain their separate locations and unique roles in the CU system.

Today, more than 56,000 students and 8,500 instructional and research faculty members make CU the largest institution of higher education in the state. Over the years, CU has developed programs that have responded to the state's need for comprehensive baccalaureate and graduate education. It has also developed programs that are especially sensitive to the needs of the communities it serves. Boulder has strengths in science and engineering and is the only public university in the state to offer a law degree. Colorado Springs distinguishes itself in space and electronics research, which creates a mutually supportive relationship with some of the area's main industries. The Denver Campus offers programs in architecture and planning, business, and public administration that serve the needs of its urban population, and the Anschutz Medical Campus is recognized nationally for its research and teaching and for its outstanding outreach programs, which serve both urban and rural communities while contributing to the education of health sciences students.

# CU Governance

The State of Colorado, through the governor's office and the legislature, provides oversight of the University of Colorado as a state institution. The 11-member Colorado Commission on Higher Education (CCHHE) acts as a central policy and coordinating board for Colorado public higher education. Members are appointed by the governor and confirmed by the senate. One commissioner is appointed from each congressional district; four are appointed at large. The CCHHE works in consultation with Colorado's eight governing boards of higher education to develop and implement legislative directives and statewide higher education policy. The University of Colorado is governed by a nine member Board of Regents, as established by the Colorado Constitution. Regents are constitutionally charged with the general supervision of the university and fiduciary insight. Board members serve staggered six-year terms. One member is elected from each of the state's seven congressional districts; two are elected at large.

Michael Carrigan, Denver (District 1); term expires January 2011  
Joseph Neguse, Boulder (District 2); term expires January 2015  
Tilman "Tillie" Bishop, Grand Junction (District 3); term expires January 2013  
Tom Lucero, Johnstown (District 4); term expires January 2011  
Kyle Hybl, Colorado Springs (District 5); term expires January 2013  
James E. Geddes, Sedalia (District 6); term expires January 2015  
Monisha Merchant, Lakewood (District 7); term expires January 2015  
Steve Bosley, Louisville (at large); term expires January 2011  
Stephen Ludwig, Aurora (at large); term expires January 2013

It is a guiding principle of the **shared governance** recognized by the Board of Regents that the faculty and the administration collaborate in major decisions affecting the academic welfare of the university. The faculty takes the lead in decisions concerning selection of new faculty. The administration takes the lead in establishing university priorities and managing matters of accountability, internal operations, and external relations of the university. In every case, the faculty and the administration participate in the governance and operation of the university as provided by and in accordance with the laws and policies of the Board of Regents and the laws and regulations of the State of Colorado.

## Administration

President Bruce D. Benson is the principal executive officer of the CU System and carries out the policies and programs established by the Board of Regents. Other key administrative officers of the CU System include:

Kelly Fox, Vice President for Budget and Finance and Chief Financial Officer  
Leonard Dinegar, Vice President for Administration and Chief of Staff  
Daniel Wilkerson, Vice President and University Counsel  
Tanya Mares Kelly-Bowry, Vice President for Government Relations

Each campus is governed by a chancellor. The chancellor is the chief academic and administrative officer responsible to the president for the conduct of the affairs of their respective campus in accordance with the policies of the Board of Regents.

Philip P. DiStefano, Boulder  
Pamela Shockley-Zalabak, Colorado Springs  
Jerry Wartgow, Denver and Anschutz Medical Campus (Interim)

# CU Governance (continued)

## Faculty

The Faculty Council is the representative governing body of the Faculty Senate. The chair or other designated representative of the Faculty Council is the spokesperson for the faculty when addressing the Board of Regents on matters of importance to shared governance.

Mark Malone, Chair  
Skip Hamilton, Vice Chair  
Bruce Neumann, Secretary

## Staff

The University of Colorado Staff Council serves as the university-wide representative body for communicating to the administration and Board of Regents matters of concern to exempt professionals and classified staff employees on all campuses.

Lori Krug and Miranda Carbaugh, Co-Chairs  
Brooke Parsons, Vice Chair  
Tina Collins, Treasurer  
Dana Drummond, Secretary

## Students

The Intercampus Student Forum serves as the university-wide representative body for communicating to the administration and Board of Regents matters of concern to the students on all campuses.

John Kroll, Chair

# Role and Mission of CU Campuses

Each of the CU campuses is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools and plays a distinct and complementary role within the CU System. The roles and missions of Colorado's public institutions are recorded in the State Statutes.

## **University of Colorado at Boulder**

The Boulder campus of the University of Colorado shall be a comprehensive graduate research university with selective admission standards. The Boulder campus of the University of Colorado shall offer a comprehensive array of undergraduate, master's, and doctoral degree programs. . . (CRS: 23-20-101(1)(a))

## **University of Colorado at Colorado Springs**

The Colorado Springs campus of the University of Colorado shall be a comprehensive baccalaureate university with selective admission standards. The Colorado Springs campus shall offer liberal arts and sciences, business, engineering, health sciences, and teacher preparation undergraduate degree programs, and a selected number of master's and doctoral degree programs. . . (CRS: 23-20-101(1)(c))

## **University of Colorado Denver**

The Denver campus of the University of Colorado shall be an urban comprehensive undergraduate and graduate research university with selective admission standards. The Denver campus shall offer baccalaureate, master's, and a limited number of doctoral degree programs, emphasizing those that serve the needs of the Denver metropolitan area. . . (CRS: 23-20-101(1)(b))

## **University of Colorado Anschutz Medical Campus**

The Health Sciences Center campus of the University of Colorado shall offer specialized baccalaureate, first-professional, master's, and doctoral degree programs in health-related disciplines and professions. It shall be affiliated with the University of Colorado Hospital and other health care facilities that offer settings for education, clinical practice, and basic and applied research. . . (CRS: 23-20-101(1)(d))

#Excludes Distance MBA

^ 35 Education Specialists degrees included in Master's degree count

All counts are duplicated degree counts (students receiving one degree but in multiple programs are counted multiple times; consistent with state reporting method).

University of Colorado and Other Colorado Public 4-Year Institutions: Degrees Awarded, FY 2009

## Student Achievement on Professional Exams

Certified Public Account (CPA) Exam	In 2008, 35% of CU students without an advanced degree passed all sections of the CPA exam, compared to 31% nationally. 46% of CU students with an advanced degree passed all sections of the CPA exam, compared to 39% nationally.
Colorado Bar Exam (Law)	2009 pass rate for first-time test-takers from CU-Boulder = 94%; the state pass rate excluding CU students = 88% (based on July 2009 test administration)
NCLEX-RN (Nursing)	2008 pass rates for baccalaureate program students = 93% at UCD and 93% at UCCS
Physical Therapist Licensing Exam	2009 CU pass rate = 100%
Central Regional Dental Test	2008 CU overall pass rate = 84%
National Board of Dental Examinations**	2008 average score =80% for Part 1 and 84% for Part 2 (Part 1 national average score = 82%; Part 2 81%)
US Medical Licensing Exam Step 1	2007 CU pass rate = 95%
US Medical Licensing Exam Step 2	2008-09 CU pass rate = 97% (clinical knowledge) and 97% (clinical skills)
National Pharmacy Licensing Exam	2008 CU pass rate = 98%

# Student Satisfaction

Based on responses to the National Survey of Student Engagement (NSSE)

## **BOULDER**

- 82% of seniors would attend this institution if they started over again
- 85% of seniors rated their entire educational experience as good or excellent
- 75% of seniors reported that other students were friendly or supportive

Source: [http://www.collegeportraits.org/CO/CU-Boulder/student\\_experiences](http://www.collegeportraits.org/CO/CU-Boulder/student_experiences)

## **COLORADO SPRINGS**

- 76% of seniors would attend this institution if they started over again
- 83% of seniors rated their entire educational experience as good or excellent
- 71% of seniors reported that other students were friendly or supportive

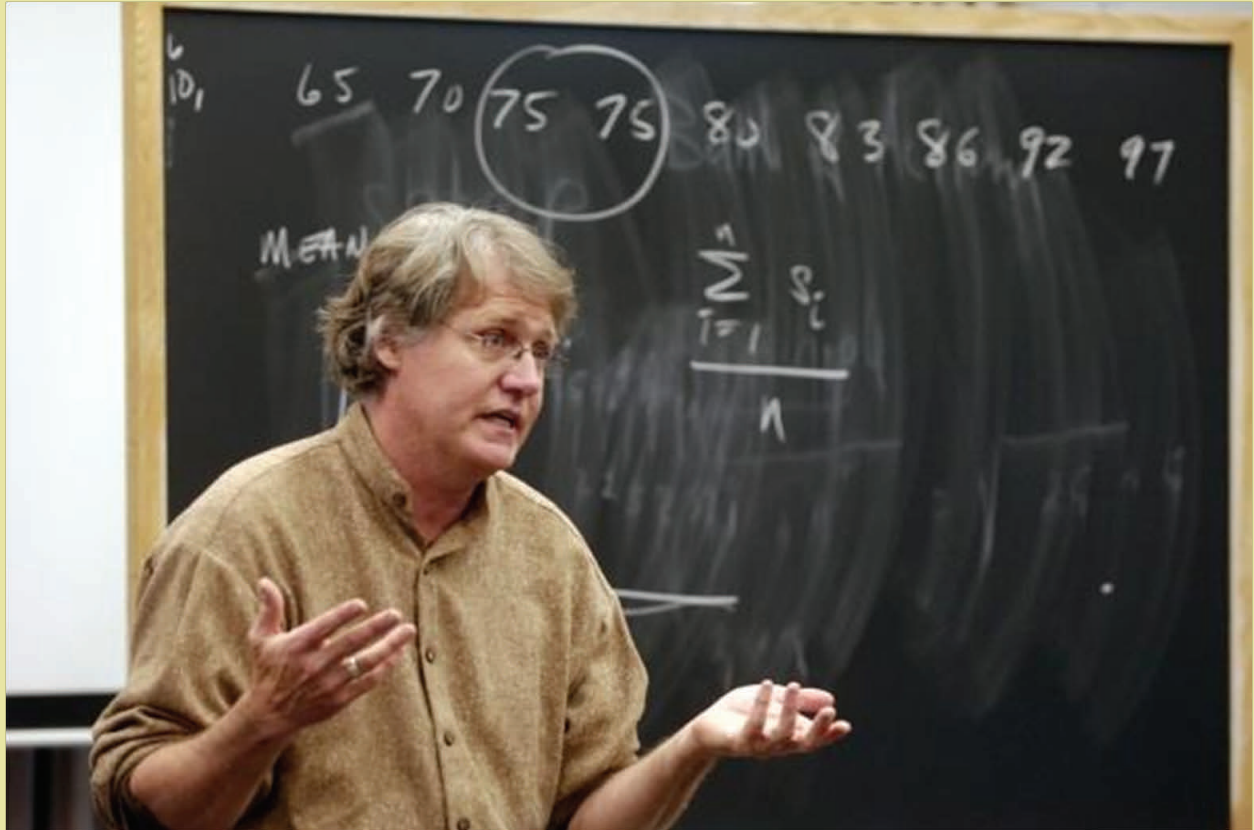

Source: [http://www.collegeportraits.org/CO/UCCS/student\\_experiences](http://www.collegeportraits.org/CO/UCCS/student_experiences)

## **DENVER**

- 76% of seniors would attend this institution if they started over again
- 83% of seniors rated their entire educational experience as good or excellent
- 71% of seniors reported that other students were friendly or supportive

# Distinguished Professors

CU encourages faculty to excel both in the classroom and in research and scholarship. Excellence in teaching ensures that students derive all they can from faculty, and research is vital to a comprehensive university because it helps faculty stay at the forefront of their fields. CU supports its faculty through professional development programs that aim to improve the quality of undergraduate and graduate teaching. The CU-Boulder Faculty Teaching Excellence Program provides a forum for faculty to share ideas and methods for effective teaching. The Center for Faculty Development at UC Denver assists faculty with teaching, research, technology, and outcomes assessment.

The University of Colorado extends the title "distinguished professor" to recognize the outstanding contributions of CU faculty members to their academic disciplines, as attested to by national or international recognition and/or their significant public service achievements. Candidates for this honor must demonstrate accomplishments in exemplary teaching and distinguished scholarship or creative work. As of 2009, 56 professors within the CU system have been honored with the title of distinguished professor.

## Active

Kristi S. Anseth, Ph.D.  
*Chemical & Biological Engineering - Boulder*

William P. Arend, M.D.

Arthur Robinson, M.D.

*Biochemistry/Molecular Genetics - Anschutz Medical Campus*

Norman Weiner, M.D.

*Pharmacology - Anschutz Medical Campus*

Gilbert White, Ph.D.

*Geography - Boulder*

## President's Teaching Scholars

The President's Teaching Scholars program brings together faculty from all CU campuses who have been recognized for their excellence in teaching, as well as research and creative work. Each scholar receives a stipend for two years, can access campus funds reserved for promoting teaching excellence, and holds the title of President's Teaching Scholar for the life of their association with the University of Colorado. Teaching scholars contribute to their campuses by participating in various university-sponsored activities designed to foster and recognize teaching excellence. They design, develop, and execute their own projects to enhance students' learning experiences. The signature project of the program's designers is the Colorado Learning Assessment Studies, or CLAS, a research project focusing on how students best learn and how faculty can best engage students in their learning. Since the program was initiated, 72 faculty members have received recognition. Forty still teach at CU.
