Campus and Workplace Culture (CWC) Survey

- Campus and Workplace Culture (CWC) Survey was distributed in October and November 2021. All students, faculty, and staff were invited to participate.
 - 2021 CWC Survey will provide a baseline for future survey administrations
- Each CU Campus administered their survey independently and owns their campus data security and storage
- Respondents received a personalized survey invitation delivered to their CU email address
- Survey was communicated heavily to campuses in advance
- Survey reminders were sent throughout administration period
- Some campuses offered incentives to students and staff
- While response rates are an early indicator of engagement, representativeness of the response population across institutional areas and demography are key to a successful result

Patents are a key way for CU to protect inventions made by its researchers. The university, as owner of inventions made by its faculty, students, and staff, can license patents to companies that know how to turn the invention into commercial products or services. Ideally, developing a "raw" invention into products and services desired by the public creates jobs, increases government tax revenues, and provides additional revenue to the inventor and university through patent licensing fees.

Pillar 3: Diversity, Inclusion, Equity, & Access

CWC Survey—Acceptance/Culture, Harassment & Discrimination, Civility

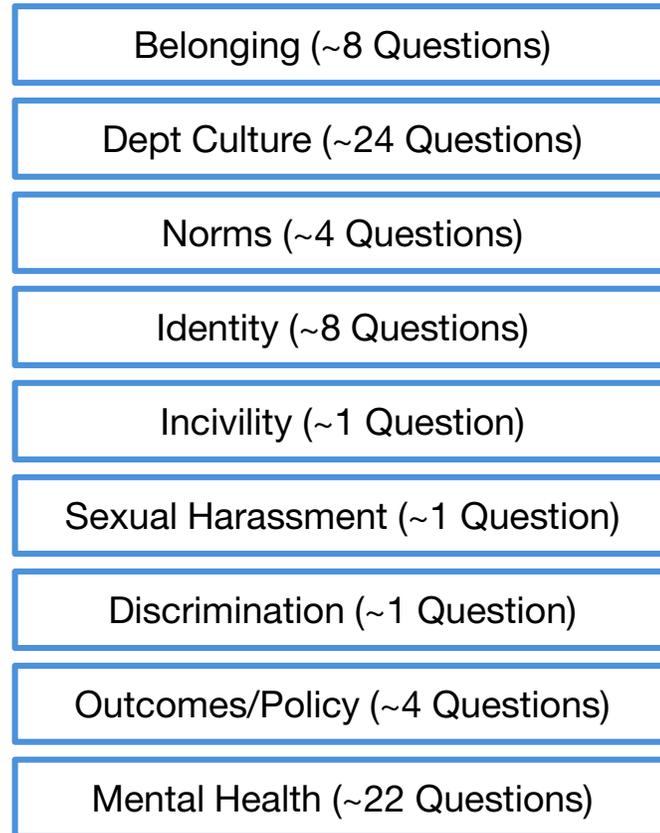

Campus and Workplace Culture (CWC) Survey

- Campus and Workplace Culture (CWC) Survey was distributed in October and November 2021. All students, faculty, and staff were invited to participate.
 - 2021 CWC Survey will provide a baseline for future survey administrations
- Each CU Campus administered their survey independently and owns their campus data security and storage
- Respondents received a personalized survey invitation delivered to their CU email address
- Survey was communicated heavily to campuses in advance
- Survey reminders were sent throughout administration period
- Some campuses offered incentives to students and staff
- While response rates are an early indicator of engagement, representativeness of the response population across institutional areas and demography are key to a successful result

CFI (Composite Financial Index)

Scale is from -4 to 10.

3 = Adequate

5 = Vibrant

10 = Superb

The Composite Financial Index (CFI) is purely a financial measure of the University's health. Other factors such as enrollment, facilities, and academic reputation are also vital measures of the University's overall health.

The four-step methodology for calculating the CFI is as follows:

- 1) Values of four core ratios are computed.
- 2) These figures are converted to strength factors along a common scale.
- 3) Strength factors are then multiplied by the following weight factors:
 - Primary Reserve Ratio - 37.5%
 - Viability Ratio - 37.5%
 - Return on Net Assets Ratio - 20%
 - Net Operating Revenues Ratio - 5%
- 4) The resulting four numbers are totaled to reach the single CFI score.

■ CU Rating

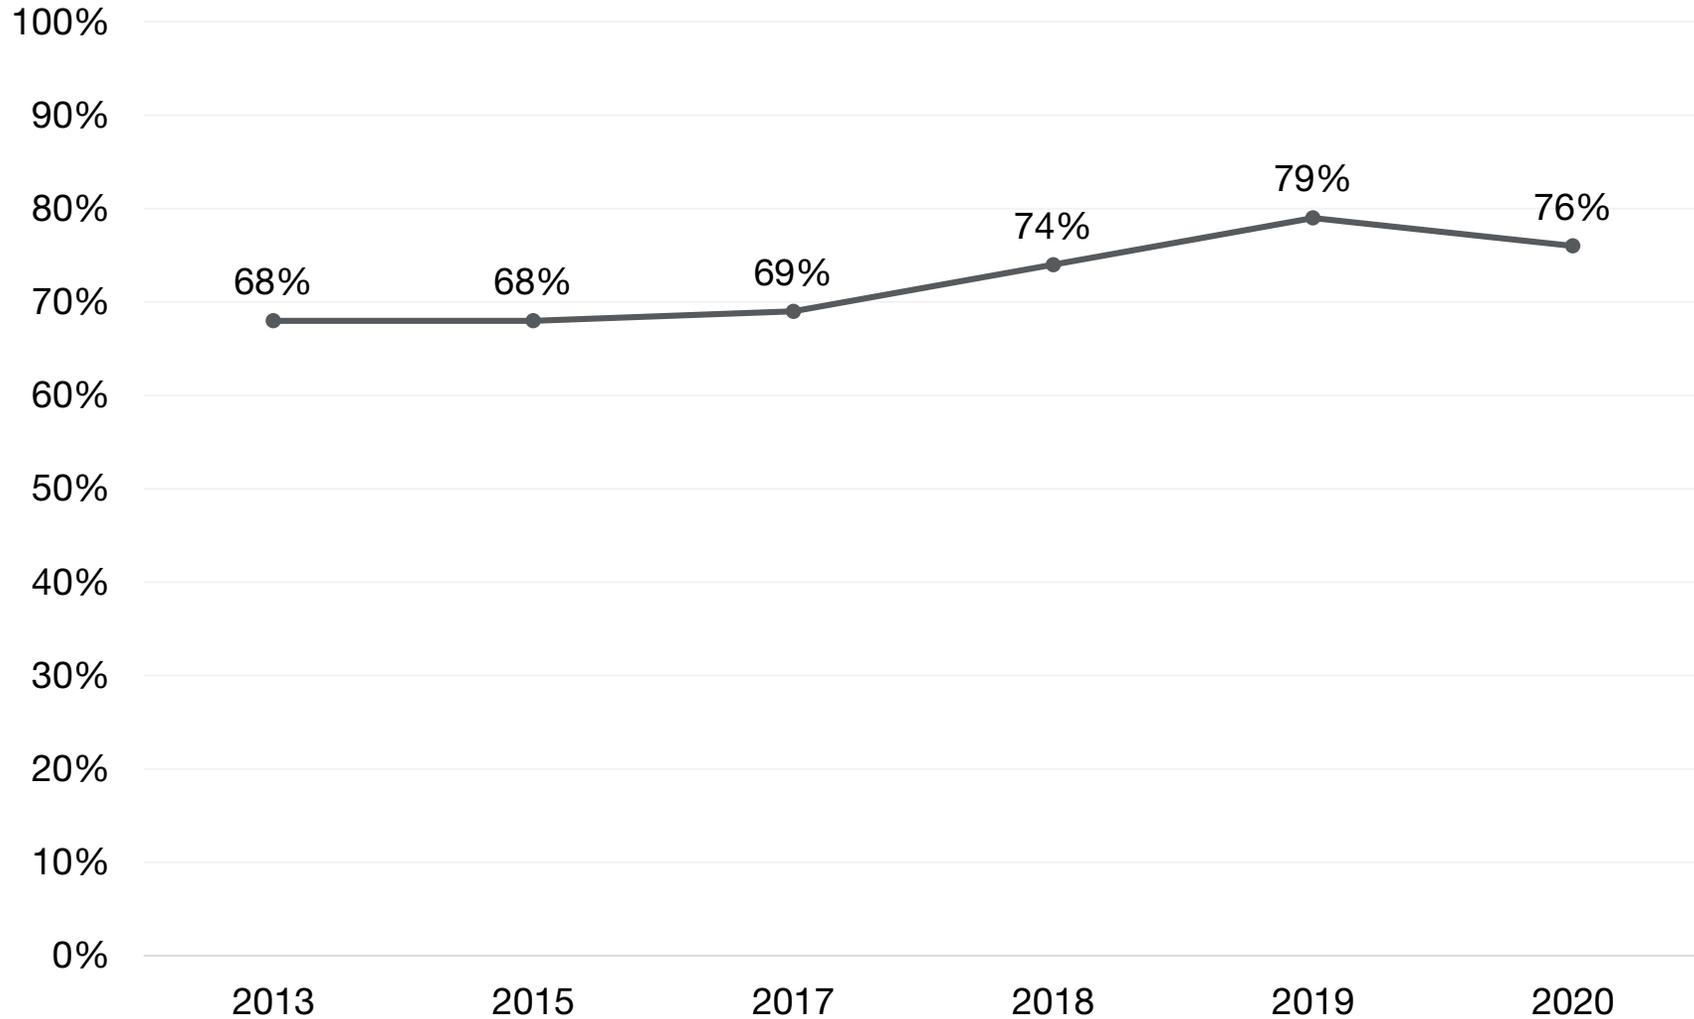

November 2021

Achieving and maintaining a high bond rating is a key measure of financial stewardship and accountability to university stakeholders.

Maintaining a high bond rating also helps to lower operating expenses.

CU Favorability Rating

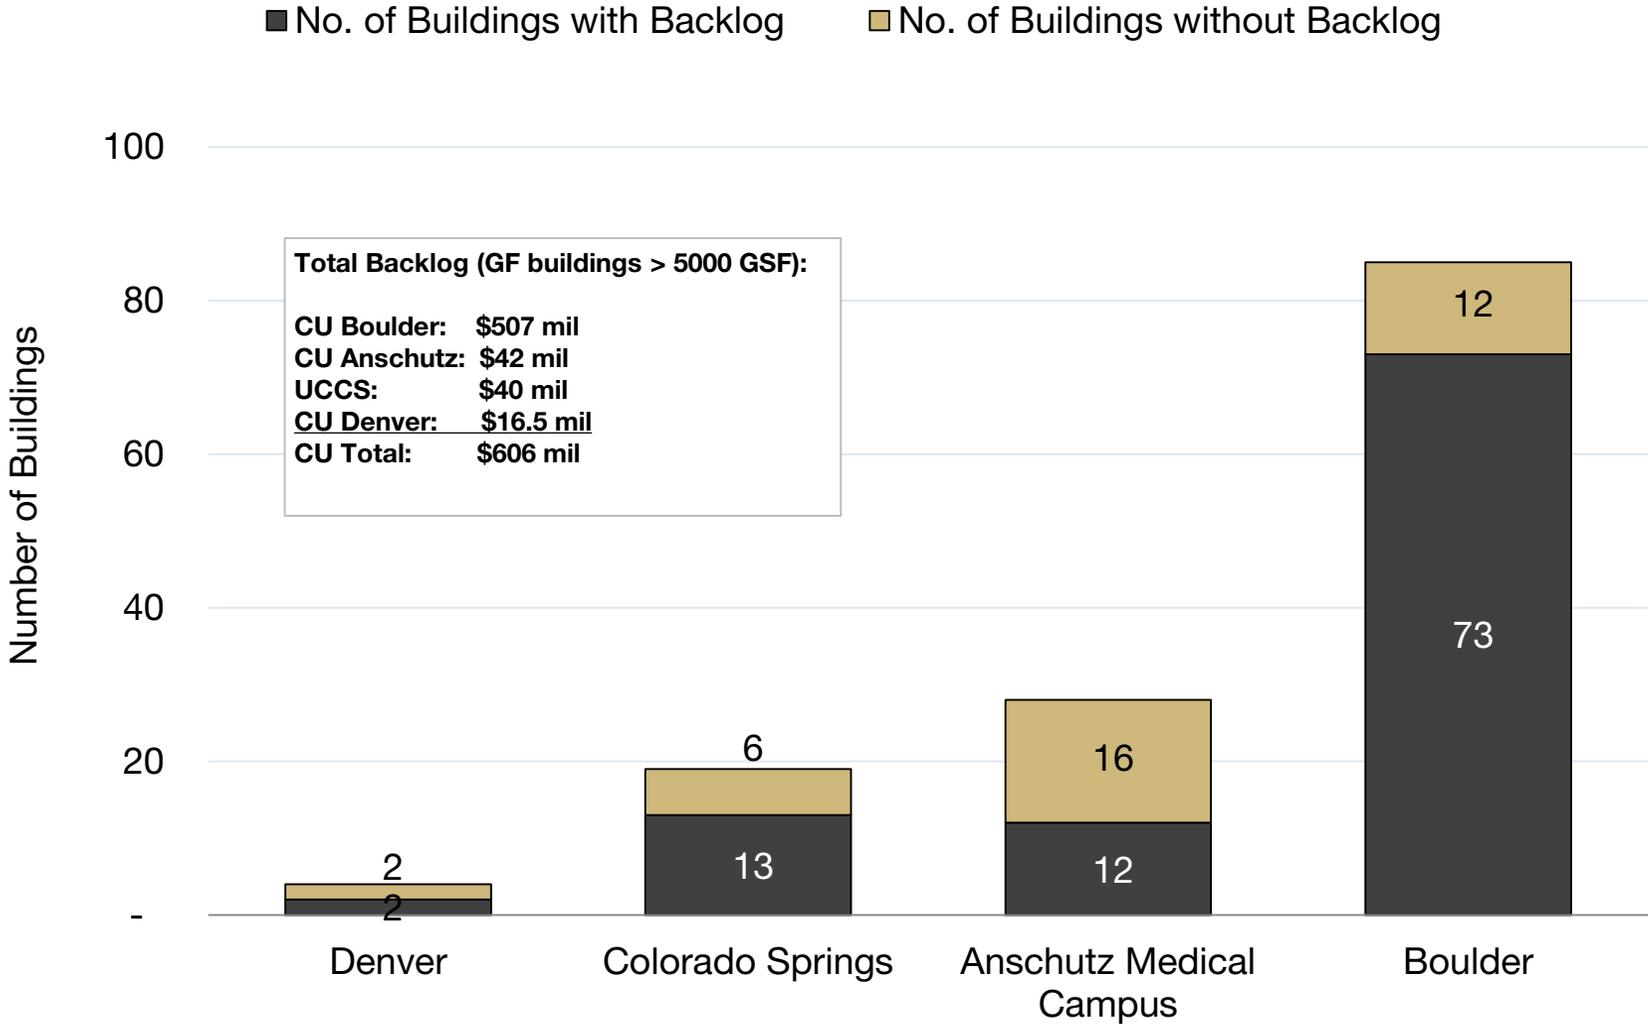

Poll Question: "Please tell me if you have a very favorable opinion, somewhat favorable, somewhat unfavorable, or very unfavorable opinion of The University of Colorado."

2013 to 2020

- Colorado poll of 1,000 active Colorado voters by year
- Favorability includes sum of respondents indicating "Very Favorable" or "Somewhat Favorable" divided by total respondents

General Fund Deferred Maintenance Backlog

FY 2021-22

Boulder: 86 percent of buildings on the Boulder campus have a reported maintenance backlog.

Colorado Springs: 68 percent have a reported maintenance backlog.

Denver Campus: 50 percent of buildings have a reported maintenance backlog.

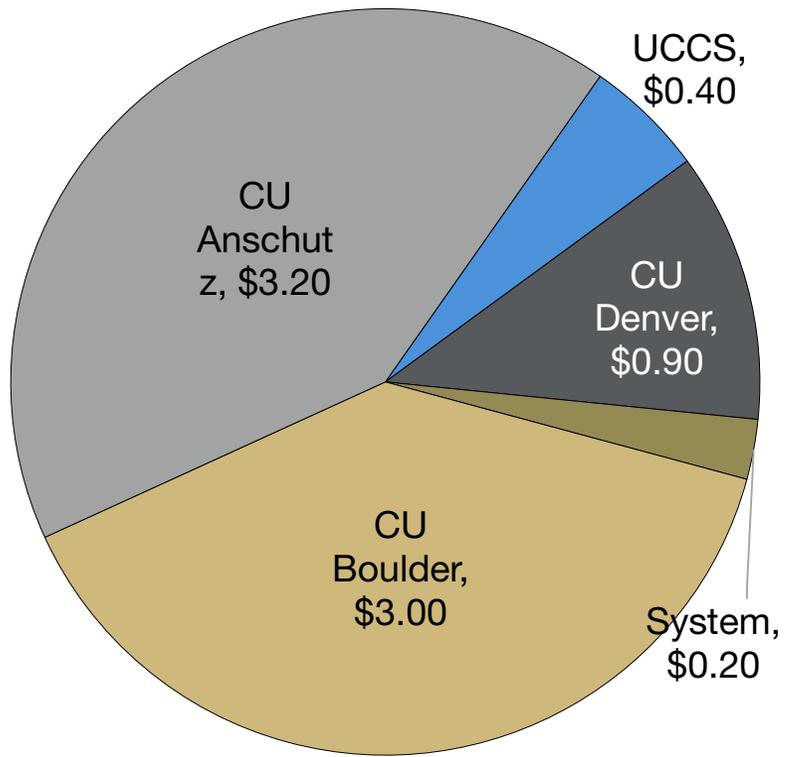

Anschutz Medical Campus: 43 percent of buildings have a reported maintenance backlog.

Source: CU Campus Facility Offices; Office of the State Architect FY 2021-22 Building Inventory Report;

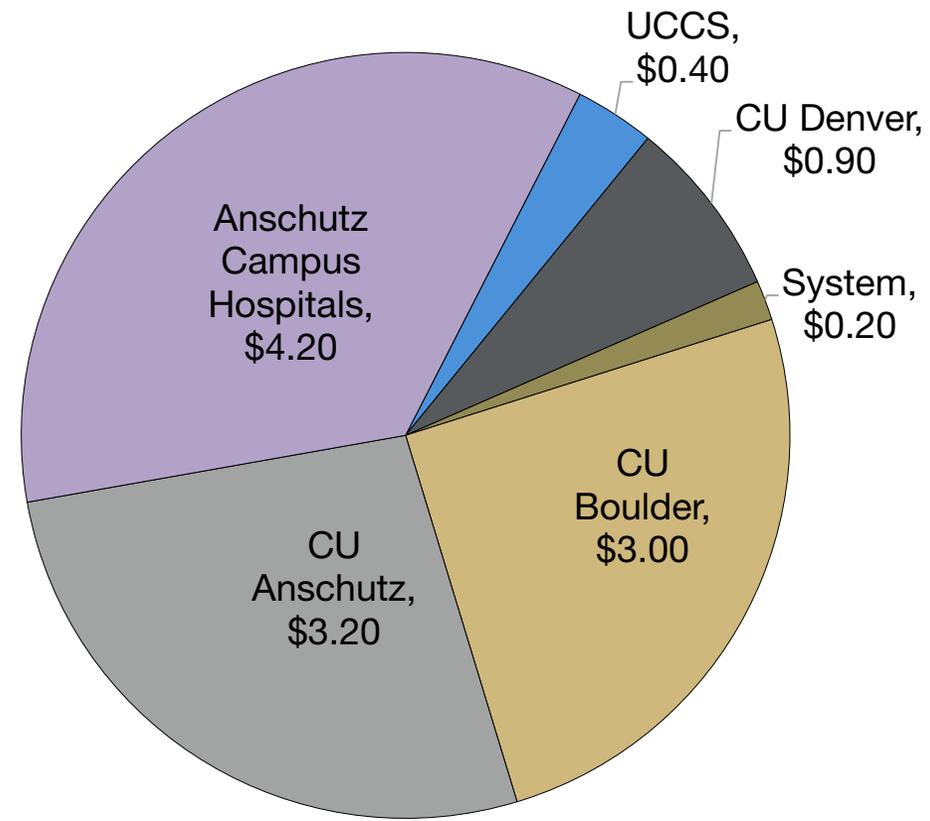

Note: Only academic buildings eligible for future state controlled maintenance over 5,000 gross square feet are included. Total backlog reflects amount reported to the Office of the State Architect.

PILLAR 4: Fiscal Strength

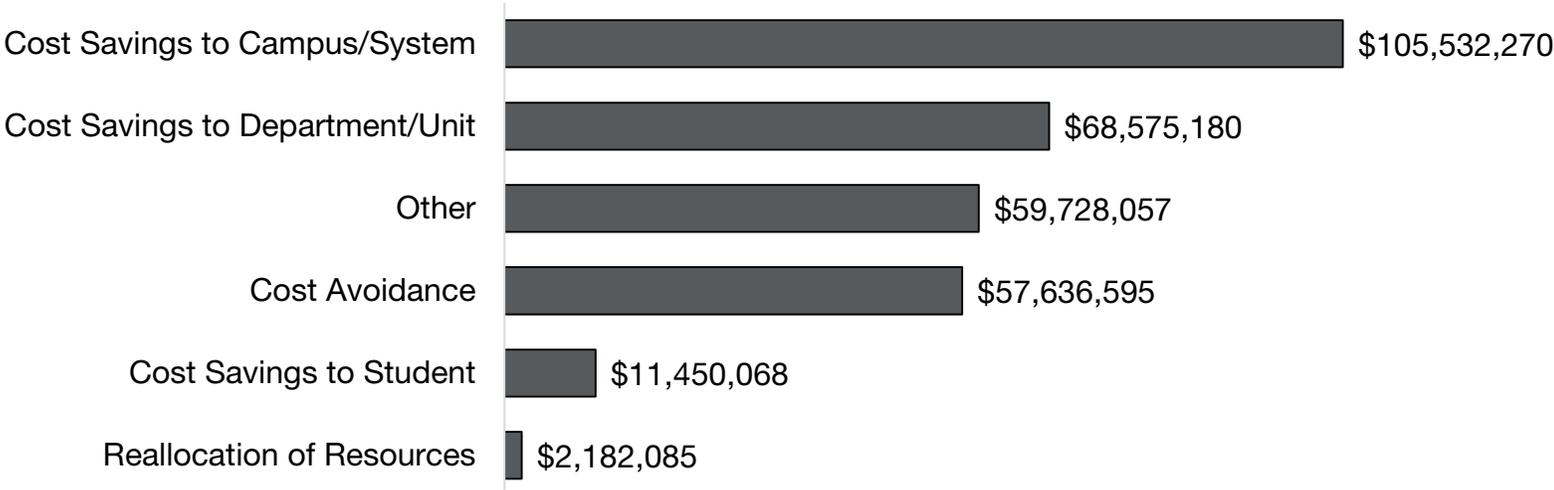

Operating Efficiencies Saved \$305 million

FY 2016-17 to FY 2020-21

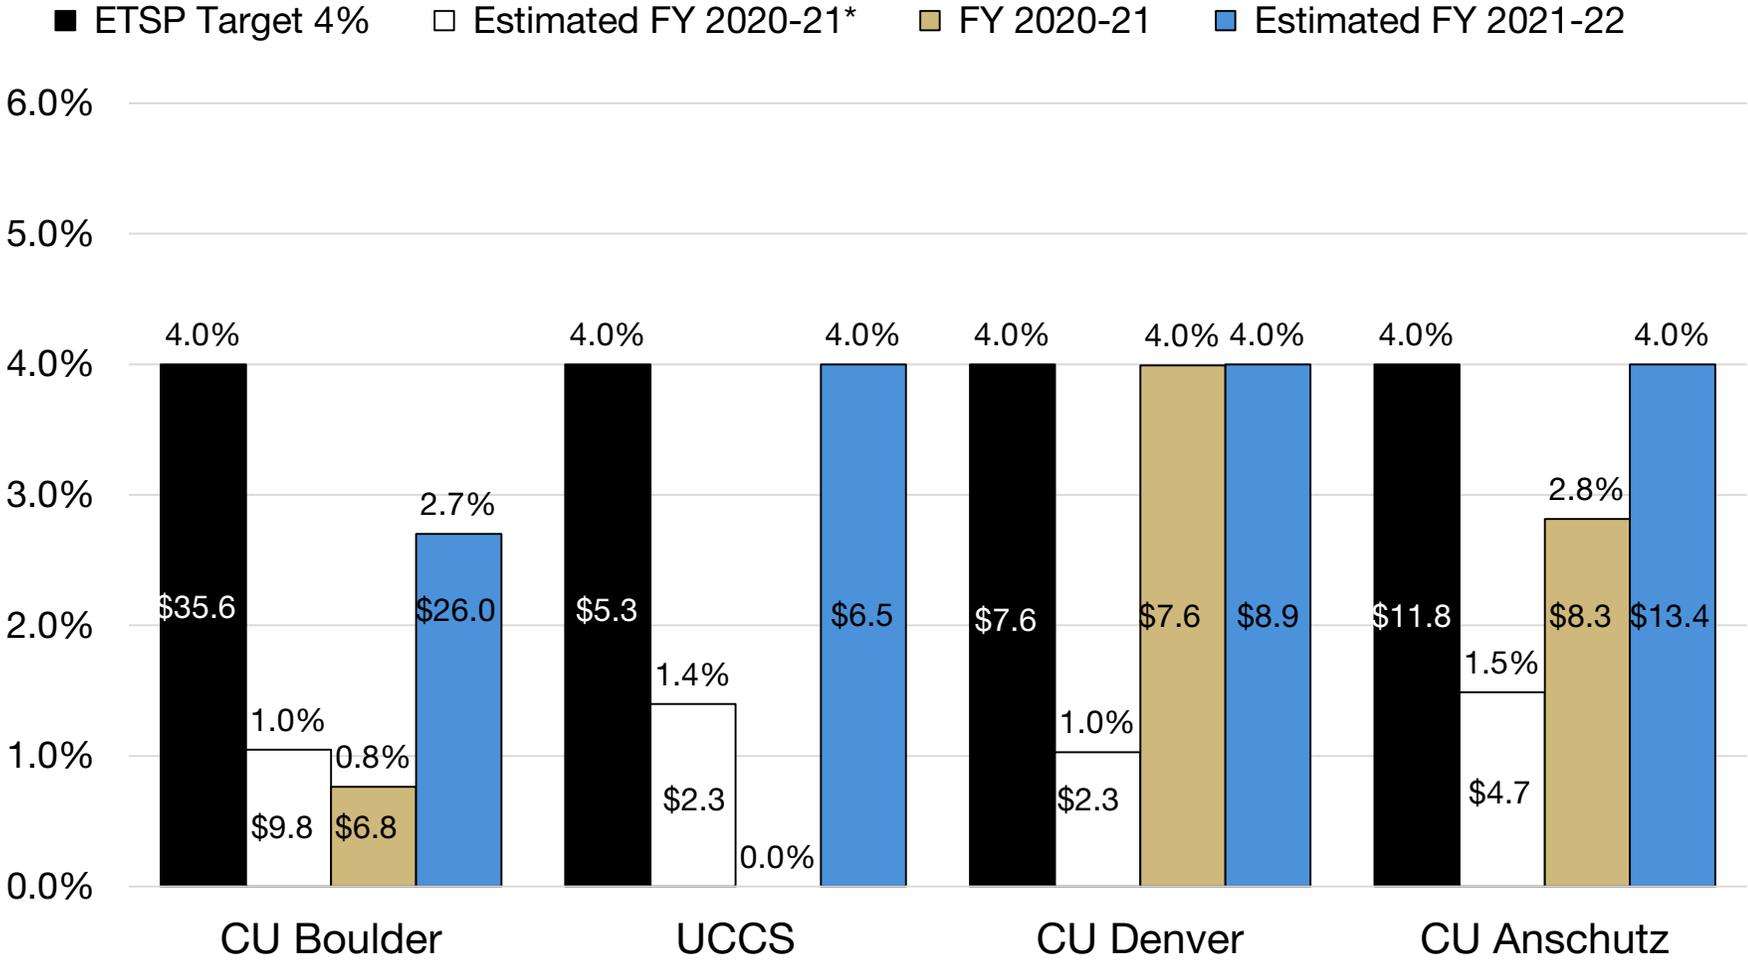

FY 2016-17 to FY 2020-21

- The university reports annually on its ongoing efforts to increase efficiency and deliver greater value. These efforts result in savings to students, departments, campuses and employees.

Emergency Tuition Stabilization Plan Status

* Estimated FY 2020-21 as of November 2020

(Dollar Amounts are in millions)

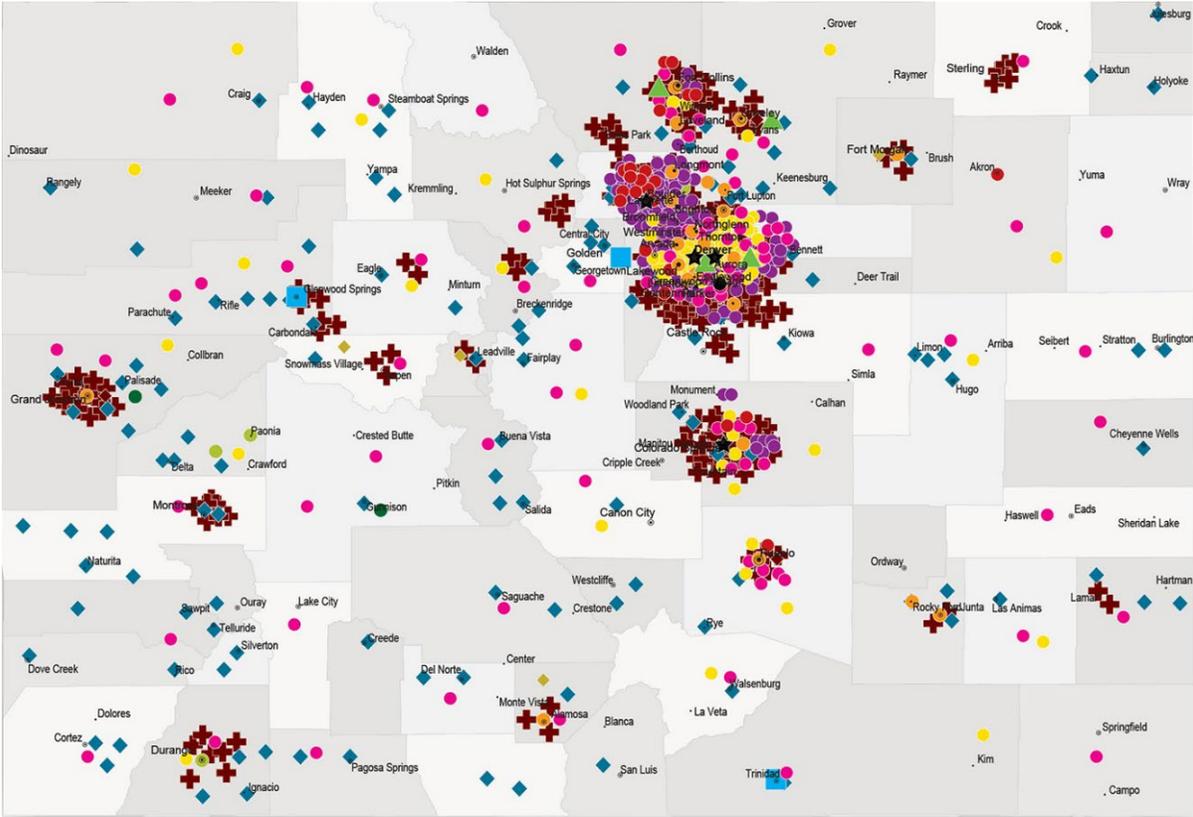

“Each campus will identify resources available for an Emergency Tuition Stabilization Plan with the goal of identifying 4% of budgeted General Fund revenues. Each campus will report progress toward the goal annually as part of the metrics used to support the university’s strategic visions.” – APS 4058

About calculation: 4% target is calculated using the E&G budgeted revenues.
